

W/ Elements™

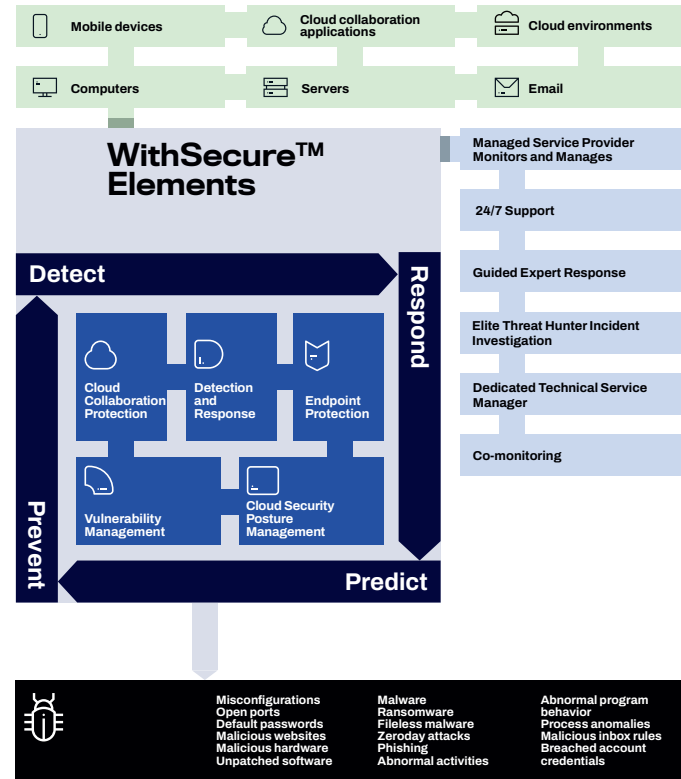

Simplify your security and hunt threats efficiently

Unite core cyber security capabilities into one intelligent cloud-based platform. WithSecure™ Elements reduces silos, vulnerability gaps, and the complexity that so often hinders instant detection and response to incidents.

The platform shares data and controls across critical security components. As a result, you get unparalleled enterprise-wide visibility from endpoints and cloud applications to shadow IT. Keep abreast of emerging threats and the rapidly changing

cyber threat landscape with leading-edge global threat intelligence. Integrated vulnerability data and behavioral analysis arms you with true situational awareness.

No looking for a needle in a haystack. No alert noises to distract you. No case is too tough for you with our elite threat hunter investigation and response guidance – available 24/7 on demand. Adapt and optimize on the go with modular architecture and flexible subscription options.

No one should experience a serious loss because of a cyber attack

WithSecure™ is cyber security's reliable partner. With more than 30 years of experience in building technology that meets business objectives, we've built our portfolio to grow with our partners through flexible commercial models. WithSecure™ Corporation was founded in 1988, and is listed on NASDAQ OMX Helsinki Ltd.

Fend off known and zeroday ransomware and malware autonomously.

Investigate, contain and remediate threats efficiently.

Leave no vulnerabilities or unpatched systems behind to exploit.

Adapt and optimize on the go with modular architecture and flexible subscription options.

Know your true attack surface and risks status.

Do more with less. Automate all you can. Offload security management tasks to certified partners.
